

NINETY-FIRST ANNUAL
COMMENCEMENT

MICHIGAN STATE COLLEGE

JENISON FIELDHOUSE
SUNDAY, JUNE FIFTH
NINETEEN FORTY-NINE

ALMA MATER

I

M.S.C. we love thy shadows
When twilight silence falls,
Flushing deep and softly paling
O'er ivy covered halls.
Beneath the pines we'll gather
To give our hearts to thee,
Sing our love for Alma Mater
And thy praises, M.S.C.

II

When from thy scenes we wander
And twilight shadows fade,
Our mem'ry still will linger
Where light and shadows played.
In the evening oft we'll gather
And turn our thoughts to thee,
Sing our love for Alma Mater
And thy praises, M.S.C.

The ushers for the academic procession are members of Mortar Board, an honorary society for senior women.

MICHIGAN STATE COLLEGE

AS ONE OF THE leading Land Grant colleges and the oldest agricultural college in the world, Michigan State College provides a technical, practical, and cultural education for its student body, in addition to extensive research and extension services to the people of Michigan.

Now in its 94th year, Michigan State College has grown from one building and four faculty members to one of the largest universities in the nation. It has approximately 1,300 staff members engaged in teaching and research, 124 modern permanent and 988 temporary buildings, and almost 12,000 acres of land, including 540 acres in the campus area proper.

Founded in 1855 to educate youth for the major occupation of that day—farming—Michigan State College has broadened its offerings as young people, preparing for other vocations, have sought the advantages of college training. Today, almost 70 different courses of study are offered in the schools of Agriculture, Business and Public Service, Engineering, Home Economics, Science and Arts, and Veterinary Medicine. This excludes the curriculum of the Basic College which has been hailed as one of the most progressive ideas for higher education in the nation today; and the Graduate School, which offers 53 courses leading to the degrees of master of arts, master of science, master of music, master of forestry, doctor of philosophy, and doctor of education.

Michigan State College continually strives to expand its service to the people of the state. Five sub-stations of the Agricultural Experiment Station are maintained in various parts of the state, and more than 150 conferences, short courses and special courses are held each year on the Spartan campus. During the 1948-49 year, more than 60,000 persons attended these "extra-curricular" educational courses and meetings.

Today, some 16,000 students from Michigan and other states and from nations all over the world are attending the college at East Lansing—8,200 of whom are housed on the campus proper. With about 85 percent of these students coming from communities in every section of the state, Michigan State College is doing its part to fill the greatly increased demand of the younger generation for higher education.

In the agricultural, business and professional fields, Michigan State College has proved its worth to the people of the state of Michigan, paying dividends many times the appropriation for its maintenance made each year by the state and national governments. Noted for its democratic and friendly spirit, the student body harmonizes with the college faculty to make Michigan State College a first class educational institution.

VISITORS ARE WELCOME

COLLEGE MUSEUM—

The College Museum, downstairs from main lobby of the College auditorium, will be open to visitors this afternoon from 1:00 to 5:00. Attention of the public is called especially to the late fall and mid-summer exhibits of Michigan deer in their natural surroundings; exhibit of Michigan birds with dates of arrival; the old Bolivian mummy; the Family Tree of Man; a panorama of the glacial evolution of Michigan; and "Weapons of War" from the crossbow of 1500 A.D. to the "bazooka" and "grease gun" of World War II.

ART EXHIBITIONS—

An exhibition of work by students in the Department of Art is on display in the Art Gallery in the basement of the Music building and the Art Room of the Student Union. The examples constitute a selection of the best work done during the past year in ceramics, clay modeling, drawing, painting, design and print making. Visitors are cordially welcomed. There is no charge.

WKAR, COLLEGE RADIO STATION—

WKAR, the 5,000 watt College Radio Station, with studios above the main entrance to the auditorium, is open all day to visitors.

BEAL BOTANICAL GARDENS—

In the Beal Botanical Gardens are between two and three thousand botanical plants. The Gardens are open to visitors any time.

THE FREDERICK COWLES JENISON GYMNASIUM AND FIELDHOUSE—

The Frederick Cowles Jenison Gymnasium and Fieldhouse, one of the largest and best equipped buildings for physical education and athletics in the nation, is the scene of the ninety-first annual commencement. It houses the Department of Physical Education for men and provides facilities for collegiate sports. The building will be open all day to visitors.

HORTICULTURAL GARDENS—

The Horticultural Gardens, east of the Horticulture Building and the greenhouses, will be open all day to visitors.

THE COLLEGE FARMS—

The College Farms are located on the south side of the Red Cedar River. By driving south on Farm Lane, the road running north and south past the College Auditorium, many of the farm buildings can be seen. Attention of the visitors is called especially to the College Dairy Barn, the Beef Cattle Barn, the Pavilion, the new Agricultural Engineering Building, and the Forestry Nursery.

MICHIGAN STATE COLLEGE BUILDING PROGRAM—

An extensive post-war building program which is now nearing completion may be viewed by a drive around the modern and beautiful campus. Approximately 40 per cent of the cost for this physical expansion was secured through legislative appropriation and the remainder through self-liquidating loans without public expense. Buildings completed or under construction which have been financed on a self-liquidating basis are: Landon, Yakeley and Gilchrist Halls for women; Snyder-Phillips and Shaw Halls for men; food storage building; 11 apartment buildings for married students and faculty; and additions to Macklin Field stadium and the Student Union building. Buildings completed or under construction which have been financed by state appropriation are: Berkey Hall, Natural Science building, Physics and Mathematics building, Home Management building, Agricultural Engineering building, Electrical Engineering building and a steam generating plant.
