## CARLOW BREWING COMPANY

- ☞ Independent Irish Brewery funded by the O'Hara family in 1996.
- ☞ Brewers of the O'Hara's Brand range (flagship brand), including seasonal specialities and other brews.
- ☞ Pioneers in the Irish micro-brewing revival in Ireland - reviving the local brewing tradition lost for over 150 years.
- ☞ Situated in south-east Ireland – The Barrow Valley Region:
  - ☞ The best arable land on the Island of Ireland
  - ☞ Traditional malt and hop producing region
  - ☞ A water supply that is excellent for stouts and ales

## BACKGROUND/HISTORY:

- ☞ In 1996 the Irish market was totally dominated by one or two very large breweries and the market offered nothing more than 4-5 mainstream brands.
- ☞ 15 years later the Irish market has opened up considerably to local microbrews, imported beers and wines – CBC/O'Hara's played its role in this diversification being a pioneer of the Irish microbrewery movement.
- ☞ We are the only stand-alone independent Irish brewery exporting since its foundation, and the largest independent exporter with a proven track record dealing with logistics, customs etc.
- ☞ Each year we see new markets opening up to us – in the majority of cases due to the recognition of our product quality and increasing brand awareness.
- ☞ The new facility is situated in Bagenalstown, the home town of the O'Hara family.
