The Kentucky Legislative Research Commission is a 16-member committee that comprises the majority and minority leadership of the Kentucky Senate and House of Representatives. Under Chapter 7 of the Kentucky Revised Statutes, the Commission constitutes the administrative office for the Kentucky General Assembly. Its director serves as chief administrative officer of the legislature when it is not in session. The Commission and its staff, by law and by practice, perform numerous fact-finding and service functions for members of the General Assembly. The Commission provides professional, clerical, and other employees required by legislators when the General Assembly is in session and during the interim period between sessions. These employees, in turn, assist committees and individual members in preparing legislation. Other services include conducting studies and investigations, organizing and staffing committee meetings and public hearings, maintaining official legislative records and other reference materials, furnishing information about the legislature to the public, compiling and publishing administrative regulations, administering a legislative intern program, conducting a pre-session orientation conference for legislators, and publishing a daily index of legislative activity during sessions of the General Assembly.

The Commission also is responsible for statute revision; publication and distribution of the *Acts* and *Journals* following sessions of the General Assembly; and maintenance of furnishings, equipment, and supplies for the legislature.

The Commission functions as Kentucky's Commission on Interstate Cooperation in carrying out the program of The Council of State Governments as it relates to Kentucky.

Foreword

In March 2023, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms defines each variable and identifies each data source. The publication is updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in March 2023. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing Data
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. After the Kentucky profile, Kentucky is compared to its surrounding states using student characteristics, teacher staff, spending, and ACT and National Assessment of Educational Progress (NAEP) scores. The publication concludes with eight tables that sort districts by adjusted average daily attendance, free and reduced-price lunch eligibility, exceptional child count, student suspensions, per-pupil state revenue, levied equivalent tax rates, per-pupil property assessments and the different nickel taxes levied for school construction for the 2022 school year. These tables allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on membership, attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, where appropriate, percentages.

The Staffing Data section includes district data on classified personnel, certified personnel, full-time equivalent teachers, pupil/teacher ratio, national board-certified teachers, students per counselor, number of administrators, and salaries and benefits as a percentage of general fund expenditures. Additional data on average salaries, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for certified staff by rank completes the section.

The Finance section covers both per-pupil current expenditures and per-pupil revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, local, and other sources. Each district's fund balance percentage and end-of-year general fund balance are reported. In addition, the amount of state SEEK funding and any adjustments are included along with tax rate information.

The Performance section includes data from the Kentucky Summative Assessment (KSA) to ACT results, as well as selected components of the 2022 Accountability System.

Appendices break down district data for comparative purposes. These appendices show how data can be grouped to compare trends across districts of similar size, demographics, or performance.

Overall, the *Kentucky District Data Profiles* provide a snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The profiles present a broad array of indicators across multiple areas of interest.

Use Of The Profiles

The Kentucky Department of Education (KDE) encourages districts to annually review data for inaccuracies. If KDE confirms that data have been inaccurately reported, the data are changed and updated on KDE's website. As a result, in the Office of Education Accountability's annual *Kentucky District Data Profiles* report, a district's data may vary slightly from what was reported for any given year in previous editions. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are limited. The following symbols are used to designate incomplete data:

- Three dashes indicate data not reported pursuant to the Family Educational Rights and Privacy Act. When fewer than 10 students are tested, the number of students is not reported; in some cases, the test results are also not reported.
- N/A The data element N/A indicates data not available or not applicable. This may be the case when a district offers only kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.
- 0 A data point that is 0 reflects an observed measure of 0 for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a 0 populates the field.
- % A data point that is less than 1 percent.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2021-2022 fiscal or school year is referred to as 2022, the 2020-2021 fiscal year is 2021, and so on. School district fiscal years start on July 1 and end on June 30. A total of 171 districts are profiled in the report. Starting with the 2022 District Data Profiles, the years displayed for comparison in the print edition include the previous year, five years ago, and 10 years ago. For the 2022 District Data Profiles, comparisons are mad to the 2021, 2018, and 2013 school years.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview And Trends

A1 Schools: The number of schools under administrative control of a principal and eligible to establish a school-based decision-making council. An A1 school is not a program operated by or as a part of another school.

Source: Kentucky. Department of Education. *School Report Card*. Web. March 23, 2022.

EOY AADA: According to KRS 157.320(1), the end-of-year adjusted average daily attendance (EOY AADA) is determined by the aggregate days attended by pupils in a public school, adjusted for weather-related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Source: Kentucky. Department of Education. *FY2020-2021 Final SEEK*. Web. March 15, 2022.

Membership: Membership, which is a count of students enrolled as of the last day of school, is reported twice in the Overview and Trends section of the report. Membership data under the student attendance bar graph include self-contained exceptional children but do not include preschool students and grade 14 students.

Attendance %: Percentage of students who regularly attend school. The percentage is calculated by the sum of present days for all students divided by total present plus absent student days—that is, Present/(Present + Absent).

Source: Kentucky. Department of Education. *School Report Card*. Web. March 15, 2022.

Chronic Absent %: Percentage of students chronically absent, where chronic absenteeism is indicated when a student is present for 90 percent or less of full-time equivalency (FTE). KDE calculates chronic absenteeism by dividing a student's FTE present minutes by FTE instructional minutes.

Demographic Profile

Free And Reduced Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those from families with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches.

LEP: Limited English proficiency (LEP) applies to an individual

- who is between ages 3 through 21;
- who is enrolled or preparing to enroll in an elementary or secondary school;
- who
 - was not born in the United States or whose native language is a language other than English; or
 - is a Native American or Alaska Native, or a native resident of the outlying areas, and comes from an environment where a language other than English has had a significant impact on the individual’s level of English language proficiency; or
 - is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual
 - the ability to meet the state’s proficient level of achievement on state assessments;
 - the ability to successfully achieve in classrooms where the language of instruction is English; or
 - the opportunity to participate fully in society.

Source: Kentucky. Department of Education. *FY2020-2021 Final SEEK*. Web. March 15, 2022.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and another country for the purpose of seeking temporary or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary or seasonal employment in qualifying activities. Because of a change in the way data were collected, numbers may not compare from year to year.

2022 SEEK Analysis - Tax Rates

Calculated SEEK Base Funding: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Source: Kentucky. Department of Education. FY 2021-22 SEEK *Final Summary Data*. Web.

Less 30 Cent Local Effort: The amount of locally generated tax revenue raised pursuant to KRS 160.470(9)(a), which mandates that each district must levy a minimum equivalent tax rate

of 30 cents per \$100 in assessed value of property and motor vehicles in the district in order to receive SEEK funding.

Source: Kentucky. Department of Education. FY 2021-22 SEEK *Final Summary Data*. Web.

State Tier I: Districts are permitted to raise tax revenue above the minimum requirement for local effort, up to 15 percent of the revenue generated through the adjusted SEEK Base funding. The state equalizes the additional Tier I revenue at 150 percent of the statewide average per-pupil assessment, which is equalization level. The General Assembly sets the equalization level through the budget bill each biennium. The Tier I equalization mechanism provides more state funding to those districts with less property wealth than it provides to a property-wealthy district. The number reported is the state portion of Tier I.

Adjustments:

- *Adjusted Assessment*—To the extent funds are available; the Department of Education shall provide additional funding to offset a portion of the calculated local effort required under KRS 157.390(5). If local share using the prior-year assessment increased by 4 percent plus the value of current-year new property is less than local share using the current year assessment, that difference is the amount of additional funding to be provided. Any prior-year adjustment or base prorated reduction adjustment the Department of Education makes on the SEEK calculations.
- *Adjustments To Appropriation*—If appropriations are inadequate to fully fund the amount generated by the formula, each district receives a pro rata reduction. In addition, an adjustment may be made for correction(s) of a prior-year SEEK calculation.

Original Growth Levy: School districts that met the criteria in KRS 157.621 were able to levy an additional 5-cent tax for building-fund needs prior to April 24, 2008. Tax revenue from this source is not equalized by the state.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

Equalized Growth Levy: Districts that continued to meet the growth criteria had the option to levy a second growth nickel prior to April 24, 2008. This second nickel is called the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

Recallable Levy: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of April 24, 2005, receive equalization for 20 years provided they receive no nickel equalization other than the Facilities Support Program of Kentucky.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

BRAC Levy: School districts have the opportunity to levy a 5-cent tax for building needs. The local district must be located in a county that will have more students as a direct result of the new mission established for Fort Knox by the Base Realignment and Closure (BRAC) Commission. The commissioner of education has determined that the projected increased number of students is sufficient to require new facilities or the major renovation of existing facilities and has approved the imposition of the additional levy.

Source: Kentucky. Department of Education. *FY 2020-21 Local District Tax Levies*. Web. April 12, 2022.

Category 5 Levy: School districts that had school facilities classified as Category 5 on May 18, 2010, had the ability to levy an additional 5-cent equivalent tax rate for building purposes without being subject to recall, or the local board may have had the issue placed on the ballot. Districts would receive equalization the following year.

SEEK Distribution: The Support Education Excellence in Kentucky (SEEK) funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Performance

Kentucky Summative Assessment Proficiency Rates

The Kentucky Summative Assessment is the state test implemented to comply with federal and state testing requirements. KSA aligns with state standards in tested content areas and was developed in consultation with Kentucky teachers.

Students taking the KSA receive one of four broad performance designations that range from novice (lowest) to apprentice, proficient, and distinguished (highest). The percentage of students scoring proficient or distinguished is known as the “proficiency rate.”

The profiles report proficiency rates for all KSA subjects included in Kentucky’s accountability system. Table 1 shows these subjects along with the grades in which students are tested. At the district level, scores are aggregated into grade-level spans as shown in Table 1.

Table 1
KSA Subjects Included In Kentucky’s Accountability System
By Grades Tested And Grade-Level Span

	Grade-Level Spans Tested		
	Elementary	Middle	High
Math	3, 4, 5	6, 7, 8	10
Reading	3, 4, 5	6, 7, 8	10
Science	4	7	11
Social studies	5	8	11
Combined writing*	5	8	11

*The KSA for writing includes two separate tests: on-demand writing, and editing and mechanics. The writing data used in calculating accountability combines data from the two tests. Because of limitations in district-level data available for the combined writing scores, the KSA section of the profiles reports data for on-demand writing only. Source: Kentucky. District And State Proficiency Rates

Each district’s profile includes proficiency rates for all students in the district. For comparison, the proficiency rates for all students in the state are also included on each district’s profile.

Economically Disadvantaged, Proficiency Rates—Math And Reading

Proficiency rates for economically disadvantaged students in the district and state are reported separately in math and reading. Economically disadvantaged students are those who qualify for free or reduced-price lunch.

Average ACT 11th Grade: Students in 11th grade are required to take the ACT. The profiles report average English, reading, math, and science scale scores and the composite score. They also report the percentage of district students whose scores met or surpassed the college readiness benchmarks listed in Table 2. Benchmarks for the ACT exam were set by the Kentucky Council on Postsecondary Education (CPE), based on analysis of Kentucky data. Because there is no CPE benchmark for science, college readiness scores for science are not reported.

Postsecondary Readiness Rates

Postsecondary Readiness: These rates report the percentage of a district’s graduates and 12th-grade nongraduates who met or exceeded one or more indicators of postsecondary readiness. As shown in Table 3, KDE labels indicators as “academic” or “career.” Career indicators are those associated with career and technical education (CTE) pathways.

The profiles report districts’ total postsecondary readiness rates as well as their total academic- and career-ready postsecondary rates. Students can meet more than one indicator, so districts’ academic- and career-ready rates can sum to be greater than their total postsecondary rates. Similarly, the percentage of students who met particular academic- or career-ready indicators can sum to be greater than a district’s total academic- or career-ready rate.

Table 3 defines postsecondary readiness rates reported on the profiles.

Table 3
Postsecondary Readiness Indicators

Indicator	Component	Description
Total Postsecondary Ready		Met one or more academic- or career-ready indicator.
Total Academic Ready		Met one or more academic-ready indicator.
Academic-Ready Indicators	College Readiness Benchmark	Met or exceeded a college readiness benchmark score on one or more college admissions or college placement examinations approved by Council on Postsecondary Education.
	Advanced Placement (AP)	Achieved passing score on at least one AP exam. AP scores range from 1 to 5; 3 is considered a passing score.
	Dual Credit	Earned a grade of C or above on a dual-credit course. Dual-credit courses allow students to earn high school and college credit for the same course. Dual-credit courses must be approved as eligible by an in-state postsecondary institution and the Kentucky Department of Education (KDE). Dual-credit courses may be taught on the high school campus, the college campus, or online.
Total Career Ready		Met one or more career-ready indicator.
Career-Ready Indicators	Industry Certification	Earned at least one industry certification approved by the Kentucky Workforce Innovation Board and KDE.
	CTE End-Of-Program Assessment	Passed at least one state-developed assessment aligned with a CTE career pathway.
	Dual Credit	Earned a grade of C or above on a dual-credit course that is aligned with a CTE career pathway.
	Apprenticeship	Completed an apprenticeship program approved by KDE or the Kentucky Education and Labor Cabinet.
	Work-Based Learning	Completed a cooperative or internship program that is a minimum of 300 hours and is aligned with a credential or associate degree.

Note: Students who earn passing scores on Cambridge Advanced International or International Baccalaureate exams are also considered academic ready. Data for these exams were not available for inclusion in the profiles, but their absence has little or no effect on district postsecondary readiness rates, because students who pass these exams are typically postsecondary ready on other measures. Districts are awarded additional points for students completing industry-recognized certifications, licensures, or credentials in pathways identified as high-demand.

Data for the work-based learning indicator were not available for the 2022 profiles but will be available for the 2023 profiles. CTE = career and technical education.

Accountability Ratings

KRS 158.6455 requires that Kentucky’s accountability system describe the overall performance of each district, school, and student subgroup in the state based on a combination of academic and school quality indicators.

Overall Performance Rating

A district’s overall performance rating is determined by combining data from the state indicators, some of which carry more weight than others in the calculation of the overall performance rating.

Table 4 describes the state indicators that constitute the accountability measures, along with the relative weights of each, by grade-level span, in the calculation of overall accountability. The relative weights were determined by the Kentucky Board of Education. Reading and math have the greatest weight at every level. State indicators for graduation rate and postsecondary readiness are included in calculations for overall accountability at the high school level only.

Table 4
State Indicators And Relative Weights In Determining Overall Performance

State Indicator	Description	Weights By Level		
		Elem	Middle	High
Reading and math	Student performance on KSA tests by performance level*	51	46	45
Science, social studies, writing	Student performance on KSA tests by performance level*	40	45	20
School climate and safety	Student responses on a quality of school climate survey administered to students in tested grades**	4	4	4
English learner (ELL) progress	Individual growth compared to prior-year performance for LEP students on an English proficiency test	5	5	5
Graduation rate	Graduation rate based on 4- and 5-year graduation rates	---	---	6
Postsecondary readiness	Percentage of graduates and 12 th -grade nongraduates who meet one or more indicator of postsecondary readiness	---	---	20

Note: Elem = elementary; KSA = Kentucky Summative Assessment; LEP = limited English proficiency; ELL= English Language Learner.

*Points awarded based on performance category: Novice (0), Apprentice (0.5), Proficient (1), Distinguished (1.25).

**Scores are calculated based on the degree of positive responses on questions that are answered. Scores of students who skip the survey or individual questions are not included.

Color-Coded Performance Levels

Accountability ratings for overall performance and for each state indicator are reported in the profiles based on data published by KDE on an online dashboard. As shown in Figure 1, overall performance as well as state indicator performance are reported with color-coded performance levels of red, orange, yellow, green, and blue, with red being the lowest and blue the highest. Source: Kentucky. Department of Education. *School Report Card*. Web.

Color-Coded Performance Levels For Overall Performance
And State Indicator Performance In Kentucky’s Accountability System

Status And Change Beginning With 2023 Data

Beginning with data in the 2023 school year, a district’s overall performance as well as its performance on individual state indicators will be based on measures of current performance, or “status”, and measures of “change” between prior-year performance and current-year performance. Status levels range from “very low” to “very high,” and change levels range from “declined significantly” to “increased significantly.”

The 2022 profiles include status ratings only; change ratings will be not be implemented until 2023.

As a supplement to this report, OEA staff used district data to develop an online application that allows readers to visualize the data differently. The application is available at:

NAEP Scores: The National Assessment of Educational Progress provides important information about student achievement and learning experiences in various subjects. Also known as The Nation's Report Card, NAEP has provided meaningful results to improve education policy and practice since 1969. Results are available for the nation, states, and 27 urban districts. NAEP is a congressionally mandated program overseen and administered by the National Center for Education Statistics, within the US Department of Education and the Institute of Education Sciences. The National Assessment Governing Board, an independent body appointed by the US secretary of education, sets NAEP policy. Results are reported as scores and as percentages of students reaching NAEP achievement levels: NAEP Basic, NAEP Proficient, and NAEP Advanced.

4-Year ACGR: Public high school 4-year adjusted cohort graduation rate (ACGR). The ACGR is the percentage of public high school freshmen who graduate with a regular diploma within 4 years of starting 9th grade. Students who are entering 9th grade for the first time form a cohort for the graduating class. This cohort is adjusted by adding any students who subsequently transfer into the cohort and subtracting any students who subsequently transfer out, emigrate to another country, or die.
