

Eskilstuna Torshälla

Eskilstuna är en hembygd med ett bra utbud av restauranger, shopping, kultur och aktiviteter. Most within a walking distance and framed by reflecting waters and green oases. In the city centre you will encounter our industrial history at the Rademachers Forges and in the former Munktellstads distrikt - the former industrial area is now a centre for sports, culture and leisure. Visit the many parks and playgrounds in the city centre, the small town of Torshälla and the scenic Sundbyholmen at lake Mälaren. Many of the experiences in Eskilstuna are environmentally smart, for example the world's first recycling mall - Retuna. Welcome to discover your Eskilstuna!
