Owner
AIDE (Intermunicipal Association for the protection against floods and the purification of the communes of Liège)

Cost of the works
€ 3,9 M excl. vat

Execution
2002 - 2004

RV

Rehabilitation of 18,7 km of collectors located in the rivers in order to improve downstream the Goffontaine sewerage plant working (30 000 EH). The renovation mainly includes the imple-

mentation of 4000 m of structuring lining, the creation of 30 storm spillways and their related works and the adaptation of 350 manholes.
